PURE

SMILE AND WHITENESS

WHITE TEETH EVERYBODY ALWAYS DREAMED OF

PURE is a teeth bleaching system elaborated with the best specialists. The basic treatment consists of 5 syringes, including one designed exclusively for the wellbeing of the patient: **PURE CARE**

pen
16%

PURE SHINE

Thanks to its stylish brush applicator, easy to carry and to manipulate, **PURE Pen** allows your patients to maintain or brighten their smile at any time. 15 – 20 applications of 20 minutes

Home bleaching

22%

PURE DAY

The ideal formula for people wishing to obtain an optimal result in only two 45 minutes daily applications during 8 days.

10%

16%

PURE NIGHT

These night treatments are the answer to all bleaching requests. For sensitive teeth and gum, **PURE 10%** is the ideal solution, the softest manner to obtain the bright teeth. Approximately 4 hours during 16 nights.

In Office bleaching

PURE EXPRESS

A bright smile in just one hour! The product is applied directly on the teeth, soft tissues are completely protected. This procedure has no risks whatsoever and does not affect the structure of the teeth.

PURE EXPRESS PLUS

The perfect combination between in office and home bleaching: a fast, long lasting result. In addition, the patient has his own custom trays for a later recall.

With each treatment

PURE CARE

It reduces any possible sensitivity before, during and after treatment and quickly stabilize the color.

Even more succes

Successful advertising, at your disposal free of charge, is the guarantee of your succes. Everything is planned to inform your patients and interest them in tooth bleaching.
